The Notes may also, and in certain circumstances shall, be redeemed before the Maturity Date, in whole but not in part, at par, together with, if applicable, accrued interest, notably in the event of any change in taxation as described under Condition 8 of the Terms and Conditions of the Notes "Taxation" or if any event occurs as described under Condition 10 of the Terms and Conditions of the Notes "Events of default". In addition, in the event of the occurrence of a Restructuring Event, Noteholders will be entitled to request the Issuer to redeem their Notes at their principal amount together with, as the case may be, any accrual interest, all as defined and in accordance with Condition 6(f) of the Terms and Conditions of the Notes "Redemption at the option of the Noteholders".

Any person subsequently offering, selling or recommending the Notes (a **Distributor**) should take into consideration the manufacturers' target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes and may be material for the purpose of assessing the market risks associated with Notes. All of these factors are contingencies which may or may not occur.

Factors which the Issuer believes are specific to the Issuer and/or the Notes and material for an informed investment decision with respect to investing in the Notes are also described below.

The Issuer believes that the factors described below represent the principal inherent risks in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Prospectus (including any documents incorporated by reference herein) and reach their own views prior to making any investment decision.

In each sub-category below the Issuer sets out first the most material risk, in its assessment, taking into account the expected magnitude of their negative impact and the probability of their occurrence.

Words and expressions defined in the section entitled "Terms and Conditions of the Notes" herein shall have the same meanings in this section.

1. Risks relating to the Issuer

Except as amended below, risks factors linked to the Issuer and its activity are described in detail in pages 14 to 19 of the 2019 Universal Registration Document which are incorporated by reference herein and include:

- risks that are specific to the property sector;
- sector specified operational risks;
- legal and tax risks associated with the property business;
- financial risks associated with the property business;
- financial risks linked to the effects of climate change.

The Group's risk management policies have been taken into account in assessing the materiality of these risks.

In relation to the Covid-19, the health crisis affects the risk factors to which the Issuer is exposed, as presented below, in particular the risk of fluctuations in the property market and the tenant insolvency risk. To date, it is still difficult to assess the direct and indirect effects of this crisis on the Issuer's business and results. Despite important strengths in the current situation (a solid financial structure and a strategic focus on prime office properties), future developments in the Covid-19 pandemic and uncertainties as to its duration could increase the level of risk associated with the environment in which the Issuer's operates and have a material adverse effect on the Issuer's, its business, financial position, results or outlook.

Amendments have been made to the following risk factors which therefore replace those described in the 2019 Universal Registration Document:

RISKS THAT ARE SPECIFIC TO THE PROPERTY SECTOR

Risk factor	Risk management/mitigation measures
High risk	
1) Property cycle risks	
<p>In Paris, the commercial property market is cyclical and prices vary according to supply and demand for offices from property investors. The Issuer is therefore exposed to the risk of a cyclical reversal of the investment and/or rental market triggered by a downturn in the domestic and global economic and financial situation.</p> <p>At 31 December 2019, a 25-bps increase in the exit yield combined with a 25-bps increase in the discount rate would have the effect of reducing the Group total portfolio's appraisal value by 8%, while a 25-bps decrease in the exit yield combined with a 25-bps decrease in the discount rate would have the effect of increasing the Group total portfolio's appraisal value by 9%.</p> <p>Please refer to Note IV-5) "Intangible Assets, Property and Equipment and Investment Property" to the consolidated financial statements as of 31 December 2019, page 155 of the 2019 Universal Registration Document, for further details regarding the fair value measurement inputs for each asset class.</p> <p>The Covid-19 health crisis that France and the world are now experiencing disrupts the real estate sector. The Issuer is however unable at this stage to quantify the financial impact of this crisis on its business and 2020 results.</p> <p>The Issuer is largely unaffected by government measures concerning very small enterprises (TPE) (i.e. rent deferral) because of its strategic focus on prime office properties in Paris. TPE account for less than 2% of the Group's annual rents. The handful of requests received from tenants are analysed on a case-by-case basis and the Group endeavours to support them as far as possible during this difficult period.</p> <p>Even if the property marketing activity has slowed without coming to a complete stop, the Issuer is largely unaffected to date because it has very few vacant units immediately available for rental.</p> <p><u>Adverse effects:</u></p> <ul style="list-style-type: none"> - Lower rental income - Fall in portfolio values - Lost opportunities to purchase and sell properties - Decline in operating profit - Erosion of NAV 	<ul style="list-style-type: none"> - The risk of a cyclical market reversal is measured and taken into account by performing sensitivity tests to determine the impact of a 25 bps increase/decrease in exit yields and discount rates. - A property market monitoring system has been set up. - Consulting, monitoring, internal and external studies are regularly used by the Group. - The Group's strategic focus on prime office properties.

Risk factor	Risk management/mitigation measures
3) Risk of a credit crunch	
<p>The property's business requires regular access to bank financing. The Issuer is therefore exposed to the risk that a faster-than-expected increase in interest rates could destabilise the financial markets, driving up borrowing costs and potentially making it difficult to access bank financing.</p> <p>Please refer to Note VI-1) "Borrowing and other interest-bearing debt" to the consolidated financial statements as of 31 December 2019, pages 159 and 160 of the 2019 Universal Registration Document, for further details regarding the Issuer's borrowings and financial debts as well as relating debt covenants and early repayment clauses.</p> <p>Please also refer to Note VI-4) "Financial risks management objectives and policy", paragraph 3/ "Market risk", to the consolidated financial statements as of 31 December 2019, page 162 of the 2019 Universal Registration Document, for further details regarding sensitivity to changes in interest rate.</p> <p><u>Adverse effects:</u></p> <ul style="list-style-type: none"> - Restricted ability to purchase new assets - Restricted ability to redevelop assets - Difficulties in refinancing existing debt - Deterioration of the financial result - Erosion of NAV 	<ul style="list-style-type: none"> - Regular cash forecasts are prepared. - Outstanding debt and available borrowing capacity under the Group's lines of credit are monitored. - The Group's credit rating is monitored. - Funds can be raised by selling assets, although this alternative source of financing is also subject to market risks (price risk, market liquidity risk). In addition, asset sales carried out when prices are depressed and amid a shortage of potential buyers, or before their full reversionary potential has been achieved, would result in opportunity losses.

SECTOR-SPECIFIC OPERATIONAL RISKS

Risk factor	Risk management/mitigation measures
High risk	
5) Tenant insolvency risk, correlated to economic growth and levels of inflation and consumer spending	
<p>The Issuer is exposed to the risk of tenant default and rent arrears, non-renewal of leases and lease renewals on less favourable terms, in particular in case of economic downturn on the market.</p> <p>At 31 December 2019, the physical occupancy rate for revenue-generating building was high, at 97.4% while the EPRA vacancy rate was low, at 1.6%. The minimum period of a lease was 5.3 years and the legal lease maturity was 6.6 years, on average over the Group's portfolio. In 2019, main sources of rental income were offices at 79% and retail at 19%.</p> <p>Please refer to Note V-3) "Trade and other receivables" to the consolidated financial statements as of 31 December 2019, page 157 of the 2019 Universal Registration Document, for further details regarding the cost of risk associated with trade receivables.</p> <p>Due to the impact of the Covid-19 health crisis and the nationwide lockdown measures, the rental market will be disrupted over the coming months. These disruptions will vary greatly depending on the segments of the rental market (local shops, large shopping centres, offices in Central Business Districts, etc.). While it is still too early to estimate the short and medium term operational and financial impact of the crisis, the Issuer can rely on its strategic positioning to get through this period. Very small enterprises (TPE) that are first affected by the crisis represent less than 2% of the Group's annual rents. To date, the proportion of rent arrears remain low and only a few requests have been made by tenants to defer payment of their rent for the second quarter of 2020. In addition, very few vacant units are immediately available for rents and will be in 2020. The lease renewal rate in the second half of 2020 is less than 2%.</p> <p><u>Adverse effects:</u></p> <ul style="list-style-type: none"> - Lower physical occupancy rate - Lower rental income - Decline in operating profit 	<ul style="list-style-type: none"> - Tenant diversification policy: at 31 December 2019, the Group's top ten tenants accounted for around 39.3% of total rental income and the top five for roughly 24.0%. - The tenant base comprises companies operating in a wide variety of sectors such as financial services, real estate, consulting, insurance, fashion and luxury goods, and also includes law firms and international organisations. - New tenants are subject to credit checks before the lease is signed. A rental deposit is also obtained from each tenant. - Half-yearly financial health checks are performed for tenants with rent arrears at the period-end. - Lease expiry dates and EPRA vacancy rates are closely tracked. - A system is in place to enable the Group to anticipate lease renewals (e.g., to approach tenants with a view to renegotiating the rent or schedule refurbishment work). - Rent arrears are monitored.

FINANCIAL RISKS ASSOCIATED WITH THE PROPERTY BUSINESS

Risk factor	Risk management/mitigation measures
Moderate risk	
Liquidity risk	
<p>The conduct of the property business requires to raise significant funds, in particular the prime office property market. The Issuer has access to confirmed lines of credit but these facilities could not be sufficient enough to cover the need for significant funds to finance capital expenditure and property purchases, or to replace debt at maturity.</p> <p>As at 31 December 2019, the Issuer had access to undrawn confirmed lines of credit representing €990 million. As at 31 March 2020, €890 million out of the € 990 million were unused.</p> <p>Please refer to Note VI-1) “Borrowing and other interest-bearing debt” to the consolidated financial statements as of 31 December 2019, page 160 of the 2019 Universal Registration Document, for further details regarding the Issuer’s debt maturity schedule.</p> <p><u>Adverse effects:</u></p> <ul style="list-style-type: none"> - Deterioration of our ability to raise funds and consequently to access the liquidity needed to conduct the business - Deterioration of the Issuer’s cash position and profits 	<ul style="list-style-type: none"> - The undrawn confirmed lines of credit are sufficient to cover the Group’s repayment obligations regarding its lines of credit up until July 2022. - The Group applies a policy of diversifying its sources of debt. - S&P credit rating is BBB+ stable outlook.
Counterparty risk	
<p>The banks that provide lines of credit and/or hedging instruments to the Issuer may fail to honour their commitments. Counterparty risk in the hedging instrument is identified on the mark-to-market value of the hedging transactions.</p> <p>Please refer to Note VI-1) “Borrowing and other interest-bearing debt” to the consolidated financial statements as of 31 December 2019, pages 159 and 160 of the 2019 Universal Registration Document, for further details regarding the lines of credit and hedging instruments provided to the Issuer by the banks.</p> <p><u>Adverse effects:</u></p> <ul style="list-style-type: none"> - Loss of the benefit of hedges - Deterioration of the financial position and profits 	<ul style="list-style-type: none"> - All lines of credit and hedging instruments are arranged with eight leading banks. - Low volume of excess liquidity (excess liquidity is generally used to repay borrowings under the revolving lines of credit)

Risk factor	Risk management/mitigation measures
Interest rate risk	
<p>The Issuer is exposed to the risk of higher interest rates, and the consequential risk of being unable to raise the necessary financial resources to meet its working capital and investment needs.</p> <p>The interest rate risk concerns the following financial instruments: NEU CP and undrawn credit revolving. Please refer to Note VI-4) “Financial risks management objectives and policy”, paragraph 3/ “Market risk”, to the consolidated financial statements as of 31 December 2019, page 162 of the 2019 Universal Registration Document, for further details regarding the interest rate risk and in particular sensitivity to changes in interest rate.</p> <p><u>Adverse effects:</u></p> <ul style="list-style-type: none"> - Increase in financial expenses - Deterioration of the financial result 	<ul style="list-style-type: none"> - Interest rate risks are prudently and actively managed using an information system that tracks changes in the financial markets and calculates the fair value of hedging instruments in real time. This allows the Issuer to efficiently quantify and analyse the risks associated with interest rate fluctuations. - The Issuer uses standard interest rate hedging instruments and fixed-rate borrowings with the dual objective of reducing the sensitivity of the cost of debt to increases in interest rates and the financial costs related to these same financial instruments. According to the Group internal policy, at least 70% of the Group’s debt is hedged against interest rate risks at all times. At 31 December 2019, 89% of debt was hedged against interest rate risk (without taking into account two swap forward for a total nominal amount of € 200 million effective November 2021).

2. **Risks linked to the Notes**

2.1 **Risks related to the particular structure of the Notes**

The Issuer may be unable to meet its financial obligations under the Notes

As contemplated in Condition 2, the obligations of the Issuer in respect of principal, interest and other amounts payable under the Notes constitute direct, general, unconditional, unsubordinated and unsecured obligations of the Issuer (*engagements chirographaires*). Noteholders are exposed to a higher credit risk than creditors benefiting from security interests from the Issuer. Credit risk refers to the risk that the Issuer may be unable to meet its financial obligations under the Notes. If the creditworthiness of the Issuer deteriorates and notwithstanding Condition 10 which enable the Noteholders to request the redemption of the Notes, it may not be able to fulfil all or part of its payment obligations under the Notes, which could materially and negatively impact the Noteholders which may lose all or part of their investment.

Interest rate risks for fixed rate notes

As provided in Condition 5, the Notes bear interest at a fixed rate of 1.500 per cent. *per annum*, payable annually in arrears on 5 June of each year commencing on 5 June 2021. As a result, an investment in the Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Notes. Generally, prices of fixed interest rate notes tend to fall when market interest rates rise and accordingly are subject to volatility. Therefore, the price of the Notes at any particular time may be lower than the purchase price for the Notes paid by the Noteholders and may cause Noteholders to lose a portion of their investment if they decide to sell the Notes.

The Notes may be redeemed prior to maturity

In the event that the Issuer would be obliged to pay additional amounts in respect of any Notes due to any withholding as provided in Condition 8 of the Terms and Conditions of the Notes (*Taxation*), the Issuer may and, in certain circumstances shall, redeem all, but not some only, of the Notes then outstanding in accordance with such Condition.

In addition, the Issuer may, at its option (i) redeem, in whole or in part, the then outstanding Notes at any time prior to the Residual Maturity Call Option Date, at the relevant make whole redemption amount, as provided in

Condition 6(c), (ii) from and including the Residual Maturity Call Option Date to but excluding the Maturity Date, redeem, in whole or in part, the Notes outstanding at the Principal Amount of the Notes so redeemed plus accrued interest thereon, as provided in Condition 6(d), and (iii) redeem the Notes, in whole but not in part, at any time prior to their Maturity Date, if 75 per cent. of the Notes have been redeemed or purchased and cancelled, in accordance with the provisions set out in Condition 6(e) (the **Clean-Up call Option**).

In connection with the Clean-Up Call Option, there is no obligation under the Terms and Conditions of the Notes for the Issuer to inform investors if and when this percentage has been reached or is about to be reached, and the Issuer's right to redeem will exist notwithstanding that immediately prior to the serving of a notice in respect of the exercise of this option, the Notes may have been trading significantly above par, thus potentially resulting in a loss of capital invested.

The early redemption at the option of the Issuer may affect negatively the market value of the Notes. During any period when the Issuer may (or may be expected to) elect to redeem the Notes, the market value of the Notes generally will not rise substantially above the price at which they can be redeemed.

Moreover, the Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes and may only be able to reinvest at a significantly lower rate. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser. Potential investors should consider reinvestment risk in light of other investments available at that time.

All of the above may cause the investment in the Notes to be less profitable than expected for Noteholders. In such case, Noteholders carry no risk of capital loss, but a decrease in the gain that the Notes could have brought them.

Both the Make Whole Redemption by the Issuer and the Residual Maturity Call Option by the Issuer are exercisable in whole or in part and exercise of the Make Whole Redemption by the Issuer and the Residual Maturity Call Option by the Issuer in respect of the Notes may affect the liquidity of the Notes in respect of which such option is not exercised

Both the Make Whole Redemption by the Issuer provided in Condition 6(c) and the Residual Maturity Call Option by the Issuer provided in Condition 6(d) are exercisable in whole or in part.

If the Issuer decides to redeem the Notes in part, such partial redemption may be effected, at the option of the Issuer, either by (i) reducing the nominal amount of all such Notes in proportion to the aggregate nominal amount redeemed or (ii) redeeming in full only some of the Notes or (iii) any other means permitted by applicable laws.

Depending on the proportion of the principal amount of all of the Notes so reduced or the aggregate nominal amount of Notes redeemed, any trading market in respect of the Notes in respect of which such option is not exercised may become illiquid. As a result, a Noteholder may not be able to resell its Notes without incurring a significant discount from the nominal value of the Notes.

Purchases by the Issuer in the open market or otherwise (including by tender offer) in respect of certain Notes may affect the liquidity of the Notes which have not been so purchased

Depending on the number of Notes purchased by the Issuer as provided in Condition 6(h), any trading market in respect of the Notes that have not been so purchased may become illiquid. As a result, a Noteholder may not be able to resell its Notes without incurring a significant discount from the nominal value of the Notes.

Exercise of put option or notice of Event of Default in respect of certain Notes may affect the liquidity of the Notes in respect of which such put option is not exercised

Depending on the number of Notes in respect of which the put option pursuant to a Restructuring Event (as more fully described in Condition 6(f)) is exercised or in respect of which notice of an Event of Default is given (as provided in Condition 10) any trading market in respect of those Notes in respect of which such put option is not exercised or for which notice of an Event of Default is not given may become illiquid. Therefore, investors in the Notes not having exercised their put option may not be able to sell their Notes on the market and may have to wait until the Maturity Date to obtain redemption of their investments in the Notes, which may have a negative impact on the Noteholders and reduce the profits anticipated by the investors at the time of the issue.

In addition, investors may not be able to reinvest the moneys they receive upon such early redemption in securities with the same yield as the redeemed Notes.

2.2 Risks related to the market of the Notes

Market value and trading market of the Notes

The Notes are expected to be rated BBB+ by S&P. The Issuer is currently rated for its long term debt BBB+ with a stable outlook by S&P. The market value of the Notes may be affected by the creditworthiness of the Issuer and a number of additional factors.

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes are traded and, to varying degrees, market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialised countries. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser. There can be no assurance that events in France, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect. Accordingly, all or part of the investment by the Noteholder in the Notes may be lost upon any transfer of the Notes, so that the Noteholder in such case would receive significantly less than the total amount of its investment.

The secondary market generally

Application has been made to Euronext Paris S.A. for the Notes to be admitted to trading on Euronext Paris as from the Issue Date. The Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes in the secondary market in which case the market or trading price and liquidity may be adversely affected or at prices that provide them with a yield comparable to similar investments that have a developed secondary market. An investment in the Notes should be considered primarily with a view to holding them until Maturity Date (i.e. 5 June 2027).

In particular, the notes market for a *société foncière* such as the Issuer is narrow compared to other types of issuers and investors traditionally carry out very few transactions in this type of security. A Noteholder may not be able to resell its Notes without incurring a significant discount from the nominal value of the Notes.

The yield of the Notes as at the Issue Date is 1.564 per cent. *per annum*. However, investors may not be able to sell their Notes in the secondary market (in which case the market or trading price and liquidity may be adversely affected) or may not be able to sell their Notes at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. Hence, the investors may receive a lower yield than anticipated at the time of the issue.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in Euro. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than Euro. These include the risk that exchange rates may significantly change (including changes due to devaluation of Euro or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Euro would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes and (iii) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors whose financial activities are carried out or dependent principally in a currency other than euro may receive less interest or principal than expected or no interest or principal.

2.3 Risk related to legal matters

French insolvency law

As a *société anonyme* incorporated in France, French insolvency laws apply to the Issuer, Noteholders will be grouped automatically for the defence of their common interests in a Masse in accordance with Condition 12.

However, under French insolvency law, holders of debt securities are automatically grouped into a single assembly of holders (the **Assembly**) in order of the opening in France of safeguard (*procédure de sauvegarde*), accelerated financial safeguard (*procédure de sauvegarde financière accélérée*) accelerated safeguard (*procédure de sauvegarde accélérée*) or a judicial reorganisation procedure (*procédure de redressement judiciaire*) relating to the Issuer, in order to defend their common interests.

The Assembly comprises holders of all debt securities issued by the Issuer (including the Notes) regardless of their governing law.

The Assembly deliberates on the draft safeguard plan (*projet de plan de sauvegarde*), accelerated financial safeguard plan (*projet de plan de sauvegarde financière accélérée*), accelerated safeguard plan (*projet de plan de sauvegarde accélérée*) or judicial reorganisation plan (*projet de plan de redressement judiciaire*) applicable to the Issuer and may further agree to:

- increase the liabilities (*charges*) of holders of debt securities (including the Noteholders) by rescheduling due payments and/or partially or totally writing off receivables in form of debt securities;
- establish an unequal treatment between holders of debt securities (including the Noteholders) as appropriate under the circumstances; and/or
- decide to convert debt securities (including the Notes) into securities that give or may give right to share capital.

Decisions of the Assembly will be taken by a two-third (2/3) majority (calculated as a proportion of the debt securities held by the holders expressing a vote). No quorum is required to convoke the Assembly.

The procedures, as described above or as they will or may be amended, could have an adverse impact on holders of the Notes seeking repayment in the event that the Issuer or its subsidiaries were to become insolvent.

For the avoidance of doubt, the provisions relating to the Representation of the Noteholders described in this Prospectus in Condition 12 will not be applicable in these circumstances.

In addition, it should be noted that a directive (EU) 2019/1023 "on preventive restructuring frameworks, on discharge of debt and disqualifications, and on measures to increase the efficiency of procedures concerning restructuring, insolvency and discharge of debt, and amending Directive (EU) 2017/1132" has been adopted by the European Union on 20 June 2019. Once transposed into French law (which is scheduled to happen by 17 July 2021 at the latest), such directive should have a material impact on French insolvency law, especially with regard to the process of adoption of restructuring plans under insolvency proceedings. When such directive is transposed into French law, it is likely that the Noteholders will no longer deliberate on the proposed restructuring plan in a separate assembly, meaning that they will no longer benefit from a specific veto power on this plan. Instead, as any other affected parties, the Noteholders will be grouped into one or several classes (with potentially other types of creditors) and their dissenting vote may possibly be overridden by a cross-class cram down.

The commencement of insolvency proceedings against the Issuer would have a material adverse effect on the market value of Notes issued by the Issuer. Despite the fact that any decisions taken by the Assembly or a class of creditor, as the case may be, could negatively impact the Noteholders and cause them to lose all or part of their investment, should they not be able to recover amounts due to them from the Issuer, the risk is deemed to be low, given that the probability of occurrence is low.

Modification of the Terms and Conditions of the Notes and Waivers

Condition 12 contains provisions for Noteholders to consider matters affecting their interests generally to be adopted either through a general meeting or following a consultation in writing. These provisions permit in certain cases defined majorities to bind all Noteholders including Noteholders who did not attend and vote at

the relevant general meeting, or did not consent to the written consultation or Noteholders who voted in a manner contrary to the majority. General meetings or written consultations may deliberate on any proposal relating to the modification of the conditions of the Notes subject to the limitation provided by French law. If a decision is adopted by a majority of Noteholders and such modifications were to impair or limit the rights of the Noteholders, this may have a negative impact on the market value of the Notes. However, the probability that the majority of Noteholders adopt a decision which could have a negative impact on the Noteholders is low.

2. Status of the Notes

The obligations of the Issuer under the Notes constitute direct, general, unconditional, unsubordinated and (subject to Condition 3) unsecured obligations of the Issuer (*engagements chirographaires*), and rank and will rank *pari passu* without any preference amongst themselves and (subject to such exceptions as are mandatory under French law) equally and rateably with all other present or future unsecured and unsubordinated obligations of the Issuer.

3. Negative Pledge

So long as any of the Notes remains outstanding (as defined below), the Issuer undertakes that it will, and ensures that its Material Subsidiaries will, not create or permit to subsist any mortgage, lien, charge, pledge or other form of encumbrance or security interest upon any of their respective assets or revenues, present or future, to secure any Bond Indebtedness (as defined below) incurred by it or one of its Material Subsidiaries (as defined below) or any guarantee or indemnity assumed or granted by it or one of its Material Subsidiaries (as defined below) in respect of any Bond Indebtedness, unless at the same time or prior thereto, the Issuer's obligations under the Notes are equally and rateably secured therewith.

5. Interest

The Notes bear interest from, and including, 5 June 2020 to, but excluding, 5 June 2027 (the **Maturity Date**), at the rate of 1.500 per cent. *per annum*, payable annually in arrears on 5 June in each year (each an **Interest Payment Date**). The first payment of interest will be made on 5 June 2021 for the period from, and including, 5 June 2020 to, but excluding, 5 June 2021. Each Note will cease to bear interest from the date provided for their redemption, unless payment of principal is improperly withheld or refused. In such event, it shall continue to bear interest at the rate of 1.500 per cent. *per annum* (both before and after judgment) until the day (included) on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder.

The amount of interest due in respect of each Note will be calculated by reference to the aggregate value of each Noteholder's holding, the amount of such payment being rounded to the nearest cent (half a cent being rounded upwards).

If interest is required to be calculated for a period of less than one year, it will be calculated on an Actual/Actual (ICMA) basis for each period, that is to say the actual number of days elapsed during the relevant period divided by 365 (or by 366 if a 29 February is included in such period), the result being rounded to the nearest cent (half a cent being rounded upwards).

6. Redemption and purchase

(a) Final redemption

Unless previously redeemed or purchased and cancelled as provided below, the Notes will be redeemed by the Issuer at their principal amount on the Maturity Date.

(b) Redemption for Taxation Reasons

The Notes may, and in certain circumstances shall, be redeemed before the date of their final redemption, in the event of any change occurring in taxation pursuant to the conditions provided in Condition 8.

(c) Make Whole Redemption by the Issuer

The Issuer will, subject to compliance by the Issuer with all relevant laws, regulations and directives and having given not less than fifteen (15) nor more than thirty (30) calendar days' notice in accordance with Condition 11 to the Noteholders and to the Fiscal Agent (which notice shall be irrevocable and shall specify the date fixed for redemption), have the option to redeem the outstanding Notes, in whole or in part, at any time prior to the Residual Maturity Call Option Date (the **Optional Make Whole Redemption Date**) at their Optional Make Whole Redemption Amount (as defined below) together with any accrued and unpaid interest thereon up to, but excluding, the Optional Make Whole Redemption Date and any additional amounts as specified in Condition 8.

The **Optional Make Whole Redemption Amount** will be calculated by the Make Whole Calculation Agent and will be an amount in Euro rounded to the nearest cent (half a cent being rounded upwards) being the greater of (x) one hundred (100) per cent. of the Principal Amount (as defined below) of the Notes so redeemed and, (y) the sum of the then present values on the relevant Optional Make Whole Redemption Date of (i) the Principal Amount (as defined below) of the Notes and (ii) the remaining scheduled payments of interest of the Notes until the Residual Maturity Call Option Date (determined on the basis of the interest rate applicable to such Note (excluding any interest accruing on such Note from and including the Issue Date or, as the case may be, the scheduled Interest Payment Date immediately preceding such Optional Make Whole Redemption Date to, but excluding, such Optional Make Whole Redemption Date)), discounted to the Optional Make Whole Redemption Date on an annual basis (Actual / Actual ICMA) at the Early Redemption Rate plus an Early Redemption Margin (as defined below).

The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Make Whole Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties. The Make Whole Calculation Agent shall act as an independent expert and not as agent for the Issuer or the Noteholders.

Early Redemption Margin means 0.35 per cent. *per annum*.

Early Redemption Rate means:

- (i) the yield to maturity of the Reference Benchmark Security expressed as an annual rate as determined by the Make Whole Calculation Agent based on the Reference Benchmark Security mid-market price published on the regulated market « Bourse Frankfurt » (or any successor thereof) on the fourth (4th) business day in Paris preceding the Optional Make Whole Redemption Date at 11.00 a.m. (Central European time (CET)); or
- (ii) if the Reference Benchmark Security price cannot be determined in accordance with (i) above, the yield to maturity of the Reference Benchmark Security expressed as an annual rate as determined by the Make Whole Calculation Agent based on the Reference Benchmark Security mid-market price published on the relevant Bloomberg screen page (or such other page or service as may replace it for the purpose of displaying such price) on the fourth (4th) business day in Paris preceding the Optional Make Whole Redemption Date at 11.00 a.m. (Central European time (CET)); or

RECENT DEVELOPMENTS

The Issuer's net debt has increased to €1,857 million on 30 April 2020 from € 1,740 million on 31 March 2020, primarily because of dividend distribution.

For the purposes of the paragraph above, "net debt" means long-term borrowings and derivative instruments and short-term borrowings and other interest-bearing debt less accrued interests, current account advances (liabilities), deferred debt arranging fees, interest rate swaps (liabilities) and cash and cash equivalents.

On 27 April 2020, the Issuer published the following press release:

"SFL – FIRST-QUARTER 2020 FINANCIAL INFORMATION

Rental income: €46.6 million, up 1.9% like-for-like

Consolidated revenue by business segment (€000's)

	Q1 2020	Q1 2019
Rental income	46,638	48,504
<i>o/w Paris Central Business District</i>	39,209	40,416
<i>Paris Other</i>	6,832	7,613
<i>Western Crescent</i>	598	475
Other revenue	0	0
Total consolidated revenue	46,638	48,504

First-quarter 2020 consolidated rental income amounted to €46.6 million, down by a slight €1.9 million or 3.8% from the €48.5 million reported for the same period in 2019.

- On a like-for-like basis (excluding all changes in the portfolio affecting period-on-period comparisons), rental income rose by €0.9 million (1.9%), primarily as a result of index increases, and the occupancy rate was stable at around 97% in both periods.
- Rental income from spaces being redeveloped was down by €2.1 million, mainly following the renovation of several floors in the 103 Grenelle and Edouard VII buildings that were vacated in late 2019 and early 2020.
- Lastly, no income from penalties was received in first-quarter 2020, unlike in the same period of 2019 when penalties of €0.6 million were received.

The physical occupancy rate for revenue-generating buildings remained high, at 97.0% at 31 March 2020 (versus 97.4% as of 31 December 2019), while the EPRA vacancy rate stayed low, at 1.9%.

No properties were purchased or sold during the first quarter of 2020.

SFL's consolidated net debt was very slightly higher at 31 March 2020, at €1,740 million (compared with €1,732 million at 31 December 2019), representing a loan-to-value (LTV) ratio of 22.8% based on the portfolio's appraisal value at 31 December 2019.

The Group's liquidity position at 31 March 2020 was excellent, with €890 million in undrawn confirmed lines of credit and cash at bank and in hand of €116 million.

Covid-19 health crisis

SFL's greatest strengths in the current situation are its strategic positioning and low LTV.

It is still difficult to assess the direct and indirect effects of the public health crisis on SFL's business and results, but all possible measures are being taken to limit the impact and their effectiveness is monitored on a daily basis.

The Group acted swiftly to ensure that all of its properties could remain open and available for use by tenants. The only services no longer available are those that would breach current health measures (mainly mass catering services).

Rental income: SFL is largely unaffected by government measures concerning small retail outlets because of its strategic focus on prime office properties in Paris. The handful of requests received from tenants are analysed on a case-by-case basis and the Group endeavours to support them as far as possible during this difficult period, for example by allowing them to defer payment of their rent for the second quarter of 2020.

Redevelopment and renovation projects: these projects have been halted for the time being, and contractors are currently determining the necessary measures for work to resume, with an ever-present focus on safety conditions. Delivery of the projects will most likely be delayed by a few months due to these disruptions, but while it is too early to make any reliable estimate of the impact of these delays, it is expected to be limited.

Property leasing activities: the rental market has slowed without coming to a complete halt; however, SFL is largely unaffected because it has very few vacant units immediately available for rental. The major property leasing challenges concern the 83 Marceau and Biome properties that are currently being redeveloped and will be delivered in 2021/2022.

A citizen-based approach

To ensure business continuity while also protecting employees, all of SFL's teams are working from home on full pay, with no temporary lay-offs.

Lastly, SFL has contributed to the collective effort to fight the pandemic, by donating €550,000 to the Fondation de France's programmes in support of hospitals and health workers, medical research and assistance for vulnerable people. The Group has also offered to make one of its vacant properties available to the urban affairs ministry to provide emergency housing."

SUBSCRIPTION AND SALE

Pursuant to a subscription agreement (the **Subscription Agreement**) dated 3 June 2020, BNP Paribas, Crédit Agricole Corporate and Investment Bank, Deutsche Bank Aktiengesellschaft, HSBC Bank plc, Natixis and Société Générale (together, the **Joint Bookrunners** or the **Managers**) have agreed with the Issuer, subject to the satisfaction of certain conditions, to procure the subscription and the payment for the Notes at an issue price equal to 99.579 per cent. of the aggregate principal amount of the Notes. The Subscription Agreement entitles, in certain circumstances, the Managers to terminate the Subscription Agreement.

General restrictions

Each Manager has agreed to observe all applicable laws and regulations in each jurisdiction in or from which it may acquire, offer, sell or deliver Notes or have in its possession or distribute this Prospectus or any other offering material relating to the Notes. No action has been, or will be, taken in any country or jurisdiction that would, to the best of each Manager's knowledge, permit a non-exempt offer of the Notes, or the possession or distribution of this Prospectus or any other offering material relating to the Notes, in any country or jurisdiction where action for that purpose is required. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither this Prospectus nor any circular, prospectus, form of application, advertisement or other offering material relating to the Notes may be distributed in or from, or published in, any country or jurisdiction except under circumstances that will result in compliance with any applicable laws and regulations and all offers and sales of Notes by it will be made on the same terms.

Prohibition of Sales to EEA and UK Retail Investors

Each Manager has represented and agreed that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes to any retail investor in the EEA or in the UK. For the purposes of this provision the expression "retail investor" means a person who is one (or both) of the following:

- i. a retail client as defined in point (11) of Article 4(1) of MiFID II; and/or
- ii. a customer within the meaning of Directive 2016/97/EU, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II.

United States of America

The Notes have not been and will not be registered under the U.S. Securities Act of 1933 as amended (the **Securities Act**) or the securities laws of any State or other jurisdiction of the United States. The Notes may not be offered, sold or delivered, directly or indirectly, within the United States or to or for the account or benefit of U.S. Persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act or such state securities laws. The Notes are being offered and sold only outside of the United States to non-U.S. persons in reliance on Regulation S under the Securities Act (**Regulation S**).

Terms used in the preceding paragraph have the meanings given to them by Regulation S.

In addition, until forty (40) calendar days after the commencement of the offering, an offer or sale of the Notes within the United States by a dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

United Kingdom

Each Manager has represented and agreed that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 (the **FSMA**)) received by it in connection with the issue or sale of the Notes in circumstances in which Section 21(1) of the FSMA would not, if the Issuer were not an authorised person, apply to the Issuer; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Notes in, from or otherwise involving, the United Kingdom.

Certain of the Managers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Managers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes to be issued hereunder. The Managers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
