► Market

A more favourable investment market, focused on value-add deals

PARIS REGION OFFICE INVESTMENT MARKET – EXCLUDING SALES TO OWNER-OCCUPIERS

Source: BNP Paribas Real Estate

+96%

The Paris region office investment market **grew by 96% over the last 12 months, primarily due to large transactions**

63%

Paris accounted for 63% of Paris region office investment deals in H1, including 39% in the CBD, reflecting strong interest in value-add investments Paris

3.9%

at end-H1 2025, the Paris CBD prime yield stabilised at 3.9% (small volumes)

► Paris region office transactions: **€2.1bn (34% below the five-year average)**

Paris continued to top the list but with a smaller share, while La Défense's share rose to 20% (2 transactions) €0.4bn invested in Paris region offices, down 49% vs. H1 2024

► **Increased investment in other asset classes** too: Retail €1.7bn (+56% vs. H1 2024), Warehouses €1.4bn (+17% vs. H1 2024), Hotels €0.9bn (-38% vs. H1 2024), but with **offices back to being the leading asset class**

► Momentum driven by **several major deals** (Renaissance, Trinity, etc.), and signs of renewed interest in **markets outside the CBD**, notably in the rest of Paris and La Défense

► Record **yield spreads on prime real estate** in Paris CBD (3.90%), Paris excluding CBD (5.00%), the Western Crescent (5.50%) and above all La Défense (6.25%)

► Two dominant trends:

- **Prolonged absence of core investors** looking for secure products and stable returns (or wide yield spreads on prime properties)
- Strong appetite and stiff competition for products that allow investors to **capture very favourable market expectations in the short term**, in terms of prime rental values and capitalisation rates, offering **potentially attractive returns**
